

# Mechanics Truck Bodies

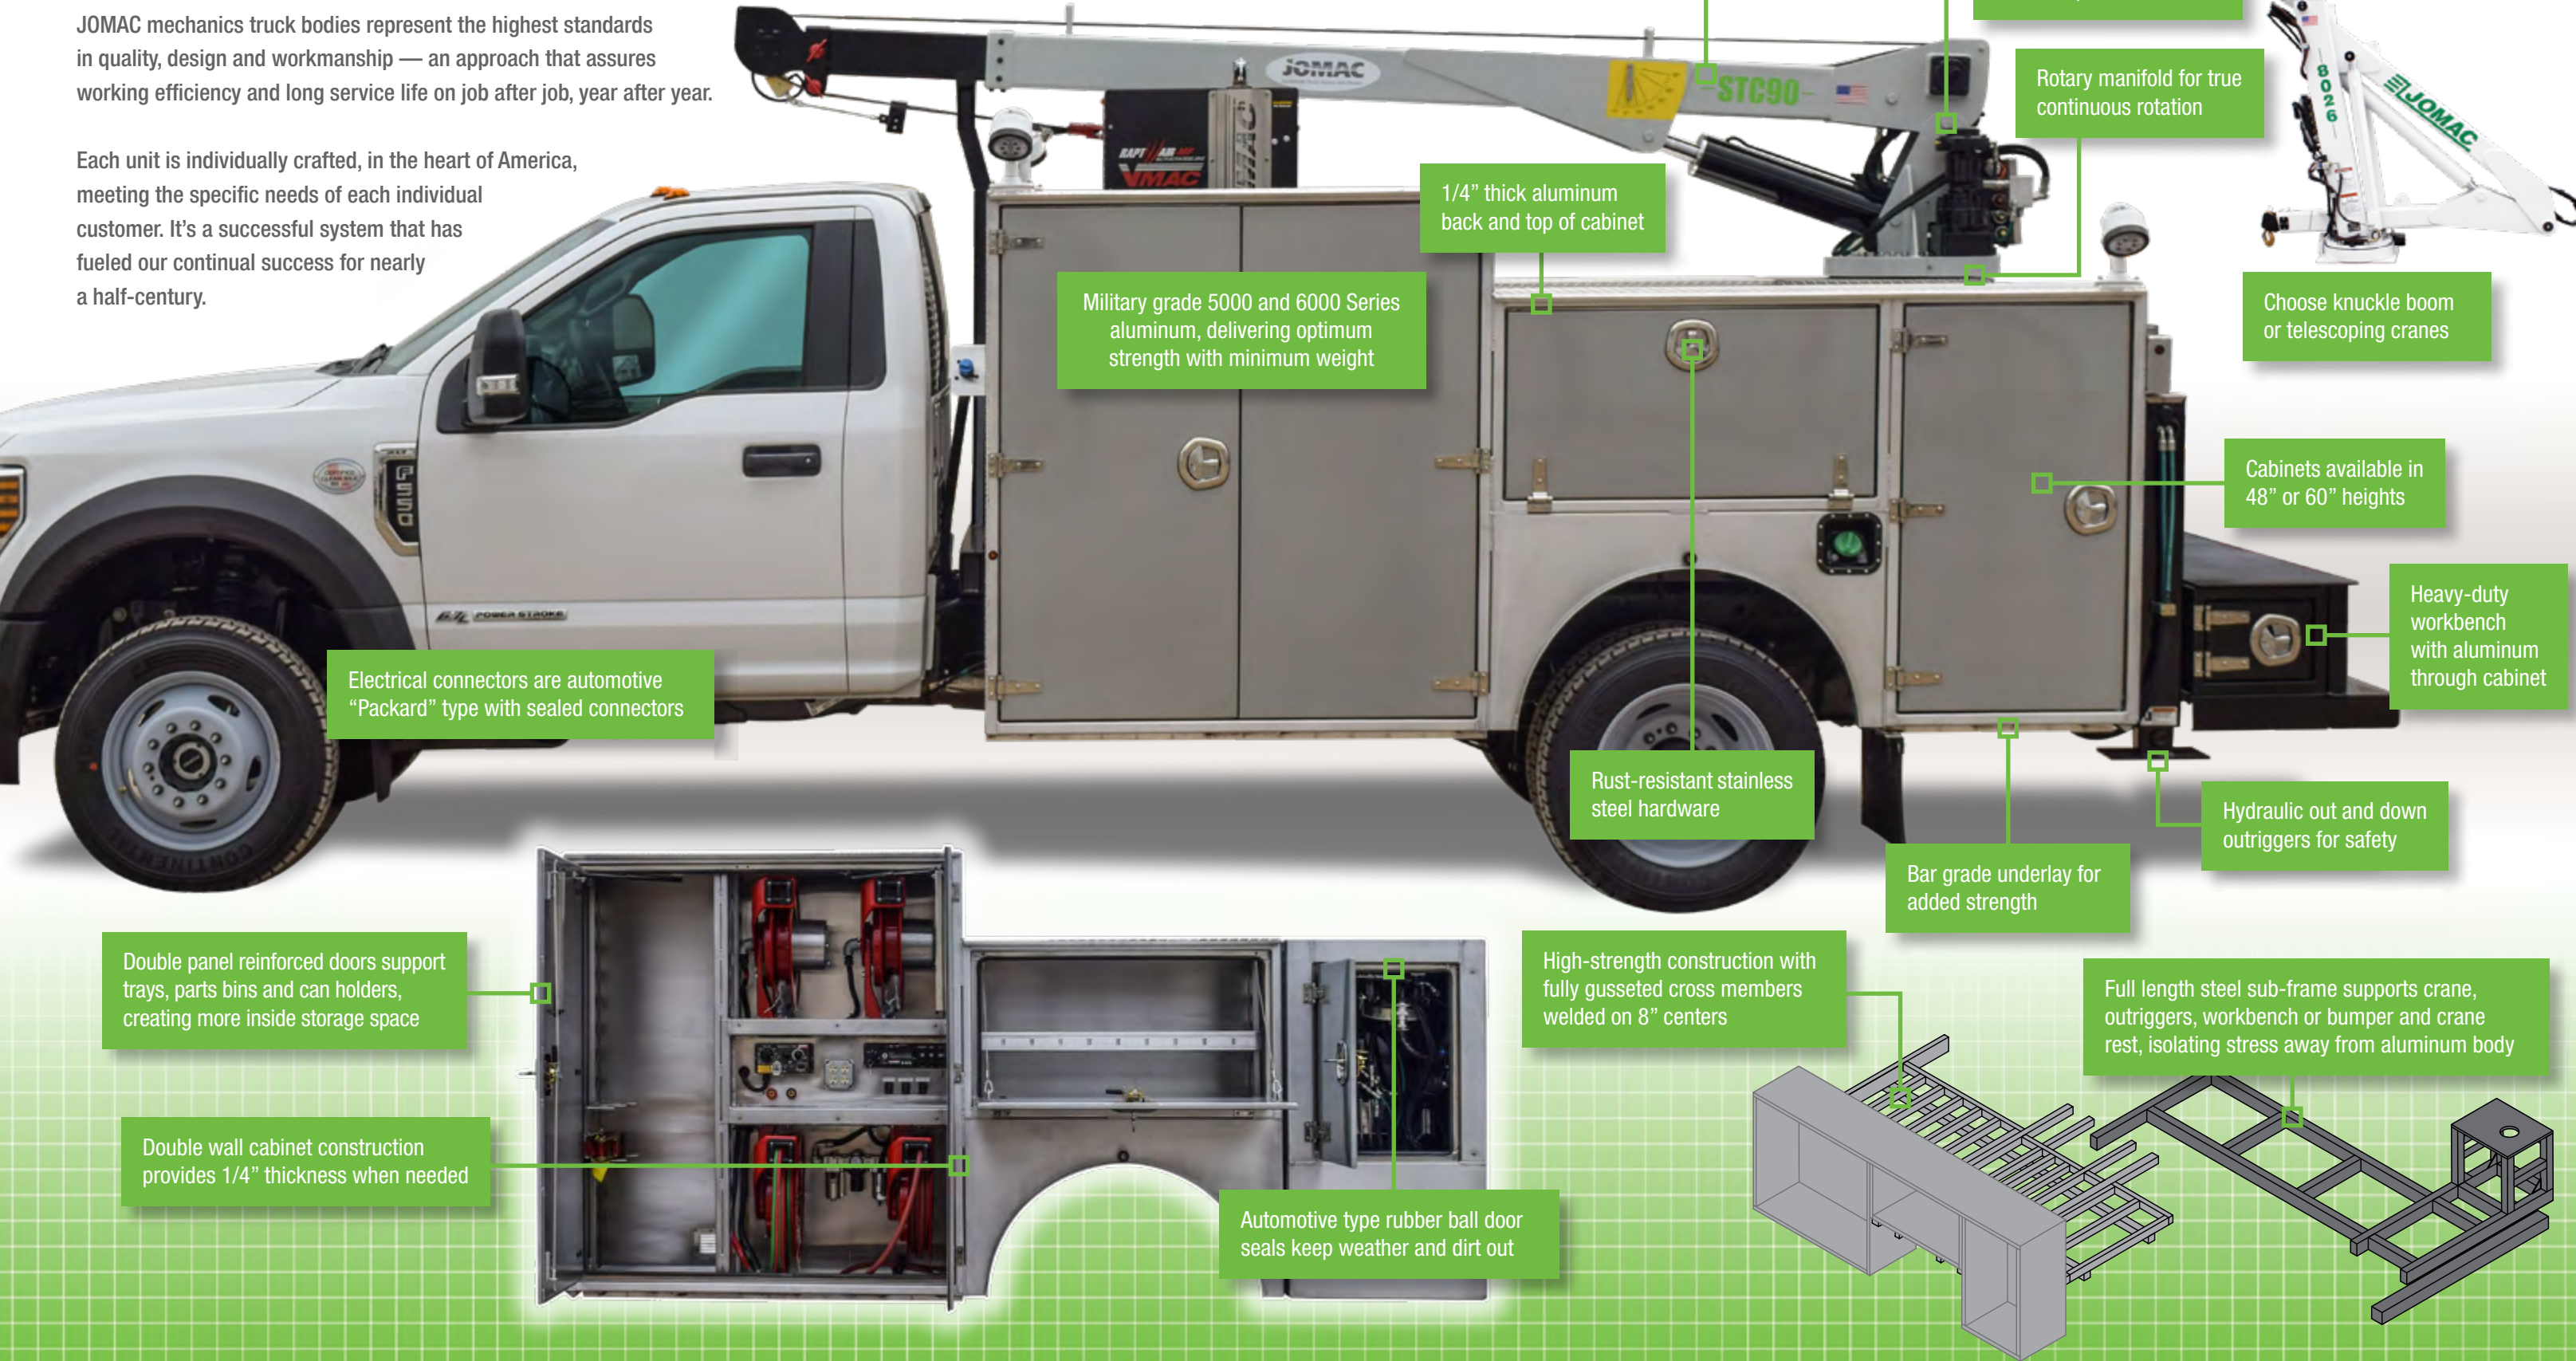

# The Difference is in the Details

JOMAC mechanics truck bodies represent the highest standards in quality, design and workmanship — an approach that assures working efficiency and long service life on job after job, year after year.

Each unit is individually crafted, in the heart of America, meeting the specific needs of each individual customer. It's a successful system that has fueled our continual success for nearly a half-century.

Cranes available from 18,000 ft. lb. to 80,000 ft. lb. capacity, mounted left or right

Oversized machined chromed pins for extra life

Rotary manifold for true continuous rotation

Choose knuckle boom or telescoping cranes

Cabinets available in 48" or 60" heights

Heavy-duty workbench with aluminum through cabinet

Hydraulic out and down outriggers for safety

Bar grade underlay for added strength

Rust-resistant stainless steel hardware

1/4" thick aluminum back and top of cabinet

Military grade 5000 and 6000 Series aluminum, delivering optimum strength with minimum weight

Electrical connectors are automotive "Packard" type with sealed connectors

Double panel reinforced doors support trays, parts bins and can holders, creating more inside storage space

Double wall cabinet construction provides 1/4" thickness when needed

High-strength construction with fully gusseted cross members welded on 8" centers

Full length steel sub-frame supports crane, outriggers, workbench or bumper and crane rest, isolating stress away from aluminum body

Automotive type rubber ball door seals keep weather and dirt out

# POWERFULLY LIGHT

## Customize & Optimize

A full range of options lets you reach your productivity potential. Choose vises, lighting options, drawer units, lube units, compressors, welders, generators, hose reels, modular storage solutions and more.

For nearly a half-century, we have proudly delivered exactly what our customers want and need.

## No excuses. No worries. No problems.

JOMAC bodies are covered with an unprecedented lifetime limited, return-to-factory structural warranty.
